"Anything new today?" asked one of our citizens of Mr. Andrew, the well-known shoe merchant. "I should say there was," he replied. "Just look at this bunch of 'Queen Quality' Spring styles we have just unpacked. Aren't they pretty swell? It's about the snappiest lot of oxfords we've ever had in the store. I thought last season that the 'Queen Quality' people had the best assortment ever, but this lot goes way ahead of them. Why, we've got styles here that last season couldn't have been bought outside the highest-priced city shop and these are equal to the high-priced goods in appearance and finish and, as to fitting qualities, you could pay almost any price you please and still not get a more accurate fit. In my opinion the 'Queen Quality' is away in advance of all other women's shoes."
